

4. Would you like your new playground to be colorful?
5. Is there unique historical information related to your community that you could envision carrying over in the new playground design?
6. Do you have a friend or relative that has special needs? If so what could we include in the new design to meet those needs.

We thank you for your time and look forward to the future of a new Kidtown. Any questions, please contact Jay Trost at 541-469-1138.
